

Fuel prices

September 2026 | Economic brief

The following information is sourced from the Australian Institute of Petroleum (AIP) and the Australian Competition and Consumer Commission (ACCC). It does not align with the daily prices reported on MyFuel NT.

The reported monthly average price for September 2026 is calculated as the average price in cents per litre (cpl) for the four weeks ending 04 October 2026 unless otherwise stated.

Gross indicative retail differences (GIRDs) are the average retail price less the published terminal gate prices (TGP) and are used as an indication of gross retail margins.

1 Compares the average of the last four weeks with the average of the corresponding four weeks of the previous month.

2 Compares the average of the last four weeks with the average of the corresponding four weeks of the previous year.

3 Terminal gate prices (TGPs) are the published daily spot prices at which fuel can be purchased from the fuel import or refinery terminal and provide an indication of the actual wholesale price of fuel. The largest component of the TGP is the price of crude oil, followed by the Commonwealth Government's fuel excise and goods and services tax.

4 Gross indicative retail differences (GIRD) are equal to the monthly average retail price less the monthly average TGP and are used as a broad indication of gross retail fuel margins.

* AIP does not report on diesel prices for Alice Springs, Katherine and Tennant Creek.
