Retail trade

July 2022 | Economic brief

Retail trade turnover (current prices)	NT	Aust
Monthly change (seasonally adjusted)	1 0.7%	1 .3%
Annual change (seasonally adjusted)	1 4.3%	1 6.5%
Year-on-year change (original)	1 0.9%	1 7.4%

Since the onset of COVID-19 the Australian Bureau of Statistics has suspended reporting trend estimates due to the sudden and extreme changes in retail expenditure (e.g. changes to regular and seasonal patterns) which significantly impacts the trend estimation process.

Monthly results

Retail trade in the Territory increased by 0.7% to \$312 million in July 2022 compared with the previous month (Chart 1). The increase was driven by the 'cafes, restaurants and takeaway food' category, partly offset by a decrease in the 'household goods' and 'food retailing' categories.

The Territory reported the third weakest result of the jurisdictions, which ranged from a decrease of 0.3% in Tasmania to an increase of 1.8% in the Australian Capital Territory and Victoria. Nationally, retail trade turnover increased by 1.3% to \$34.7 billion.

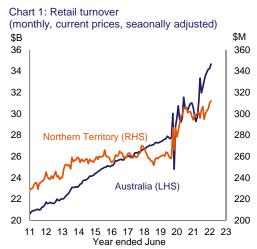

Annual results

Retail trade in the Territory increased by 4.3% in annual terms (Chart 2), the second weakest result of the jurisdictions. The largest contributor to annual growth was 'cafes, restaurants and takeaway food' (contributing 2.5 percentage points).

Year-on-year results

In the year to July 2022, retail spending in the Territory increased by 0.9% to \$3.6 billion, ranking the second weakest result of the jurisdictions. In other jurisdictions, results ranged from a decrease of 1.3% in the Australian Capital Territory to an increase of 11.2% in Victoria (Chart 3). Nationally, retail spending increased by 7.4% to \$391.2 billion over the same period.

The Territory's year-on-year result was largely influenced by increased spending on 'cafes, restaurants and takeaway food' and 'other retailing' (both contributing 0.3 ppt).
